  Jun 2018 - Jun 2019

Project

## [Jalso Web Admin Panel: Streamlining Music Management](#)

I created the comprehensive Jalso Web Admin Panel using ReactJS, and AntD. This panel simplifies music streaming management, offering intuitive controls for content, users, advertising, sections, reports, and notifications.

Key Features:

- **Insightful Dashboard:** Real-time data for informed decisions.
- **Content Management:** Organize albums, songs, artists, and categories effortlessly.
- **User Control**: Manage app and admin users seamlessly.
- **Strategic Advertising:** Implement targeted ad campaigns.
- **Real-time Engagement:** Foster user interaction with instant notifications

[Quiz India Movement: Quiz](#)

I designed and built the entire "Quiz India Movement" web application using ReactJS, NextJS and Tailwind CSS. This interactive platform offers an array of engaging features, including:

Key Features:

- **Home:** A welcoming entry point to explore the platform.
- **Masterclass Videos:** A library of masterclass video.
- **Winner:** Recognizing and celebrating achievements.
- **Janta Ka Sawaal:** An interactive forum for public questions.
- **Powerplay of the Day:** Engaging users with daily quizzes.
- **Know The Game:** An educational section.
- **Schedule:** Keeping users informed.
- **FAQs:** Providing answers to common queries.
